# *The Seventies Decade: What Has*

The 70's — Living and learning new and old mistakes

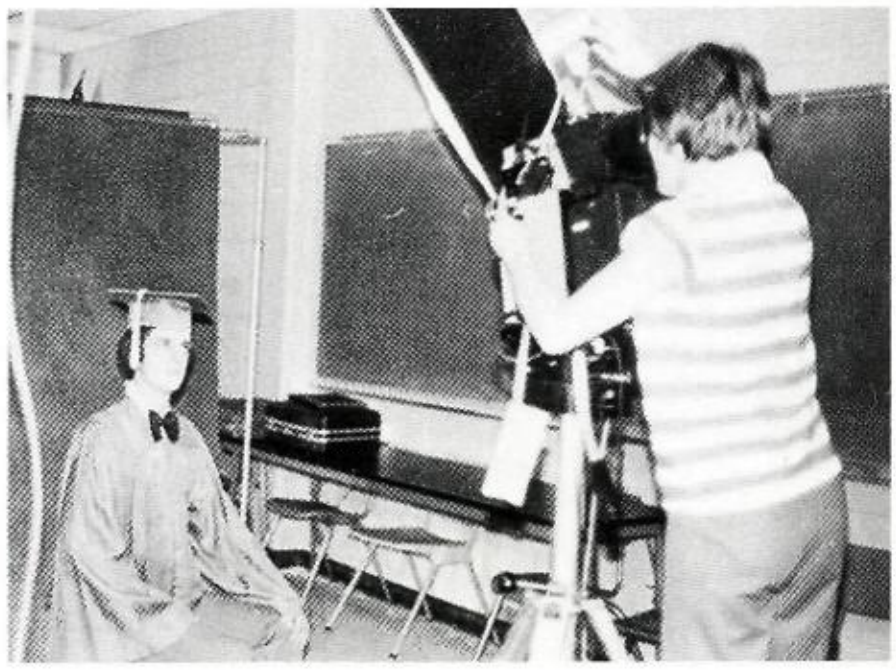
Wanda Kay Smith

This decade of 1970-1980 has meant that some of us will live and will take a look, but some others will not see the truth.

Senior '79

The 70's — There will never be another like it.

Jorge Adrian Garcia



The fantastic discos and disco dances were very popular.

Griselda Lopez

The 70's as a whole have affected everyone, but to me they will hold many memories. They will mark my first year in high school and the start of a new decade.

Ralph Garza

1970's — Carrying the Cross is Getting Harder.

Irene Euresti

The 70's decade has been the most dynamic and phenomenal one so far. The advancements made during this decade are incredible: the medical breakthroughs, advanced space technology, recorded UFO incidents, the greatest movies and talents yet, etc., the list is endless. But I think the most significant accomplishment the USA has made is their success in pulling out of war and staying out of war.

Katherine Louise Ferguson

A decade is just a feeling going away bringing new feelings to our veins.

Anonymous

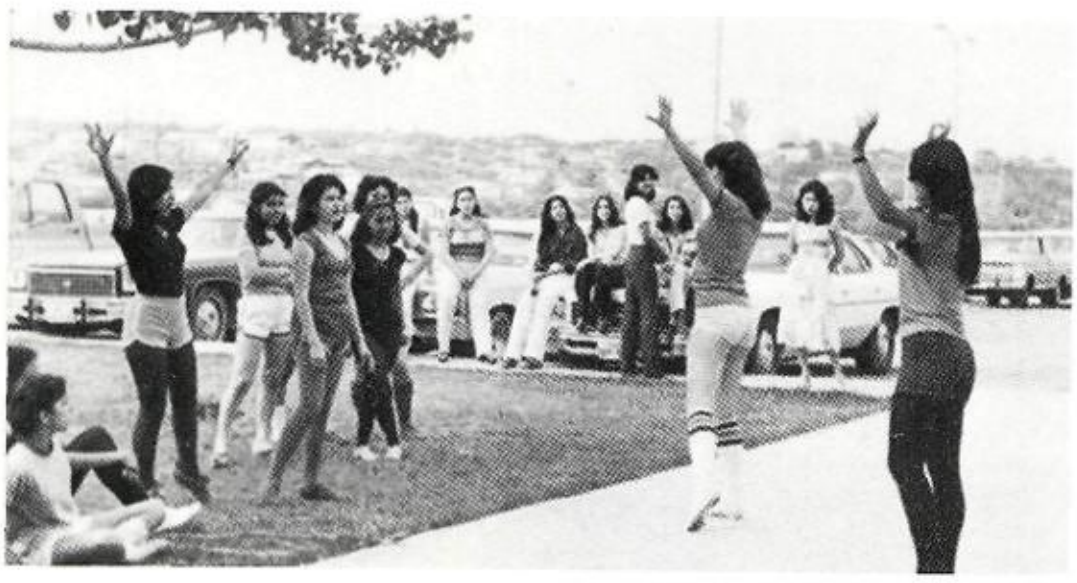
As the world turns; Peace, Inflation, and Survival.

Alberto Felan

# *It Meant to You? The Seventies*

I think of the 70's as the time that I had the most funfilled years I have ever lived.

Teresa Quinonez



The 70's were a decade of much change, this change occurring both locally and globally. Globally man has learned a little more about lasting peace as well as exploring deeper into the unknown reaches of space as well as understanding himself better. Locally, progress has creeped into our little society and pushed Eagle Pass into a realm not quite predicted so early. Therefore, to me the 70's mean Change. A change that has touched every aspect of our human existence, even if only minutely. We have explored, fought, and made peace. Change and/or transition, that is what the 70's mean to me.

Oscar Rodriguez

It represented to me the century of the Space Age astronaut.

Rudolph Munoz

I think that this decade has been one of the most important decades of the 20th Century. Development in technology and in science have seen its greatest achievements during this decade. The space shuttle is one of the many important inventions that the 70's have left to future generations.

Anonymous

Ten more years are just another step to make us aware of another ten more years.

Herbey Gonzalez.

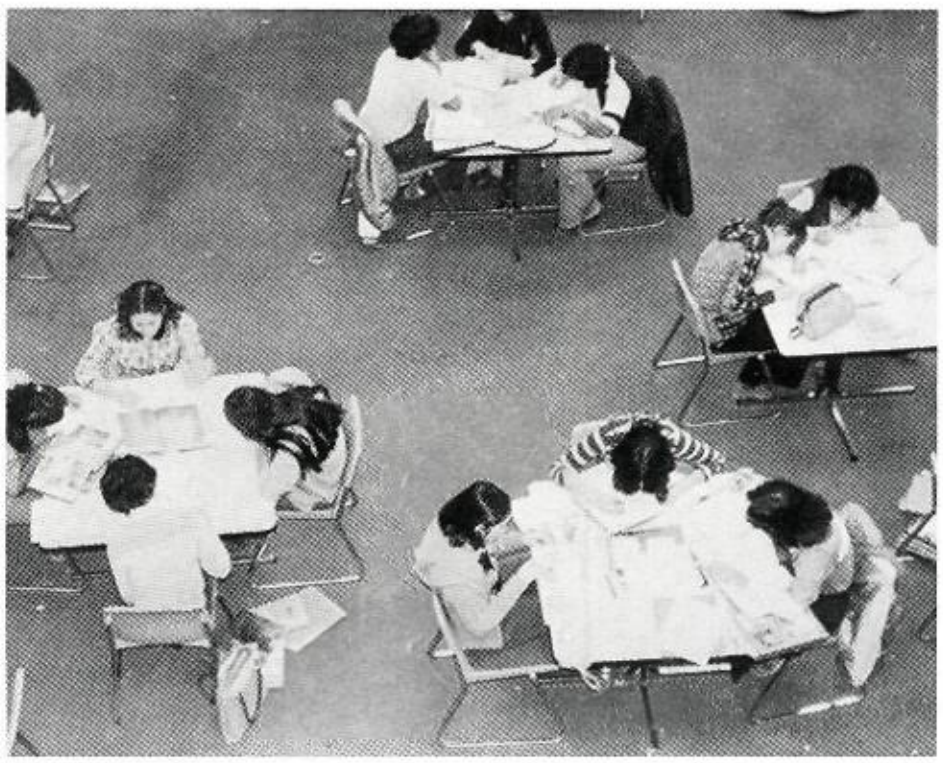
The 70's were an easier decade than the past ones. After years of war, people finally relaxed and did their own thing.

Anonymous

10 years is a period of time where you know that time is no less than the clock taking us to a possible retreat of memories.

Oscar Garza

# *Decade: What Has It Meant to*



The 70's have been a time when people have found out who they are and what they want to be. People have found that it is better to be themselves than to conform to everyone else's idea of what they should be. The 70's have been described as The Lost Decade because there were no wars, no tremendous conflicts, only self-discovery and healing. All in all, the 70's can be compared to a flower coming into full bloom after passing through the ravages of winter.

Brian Schneider

The 70's were the best years of my life because they were the times when we graduated from Jr. High and entered High School. They were also the best times I had with my friends.

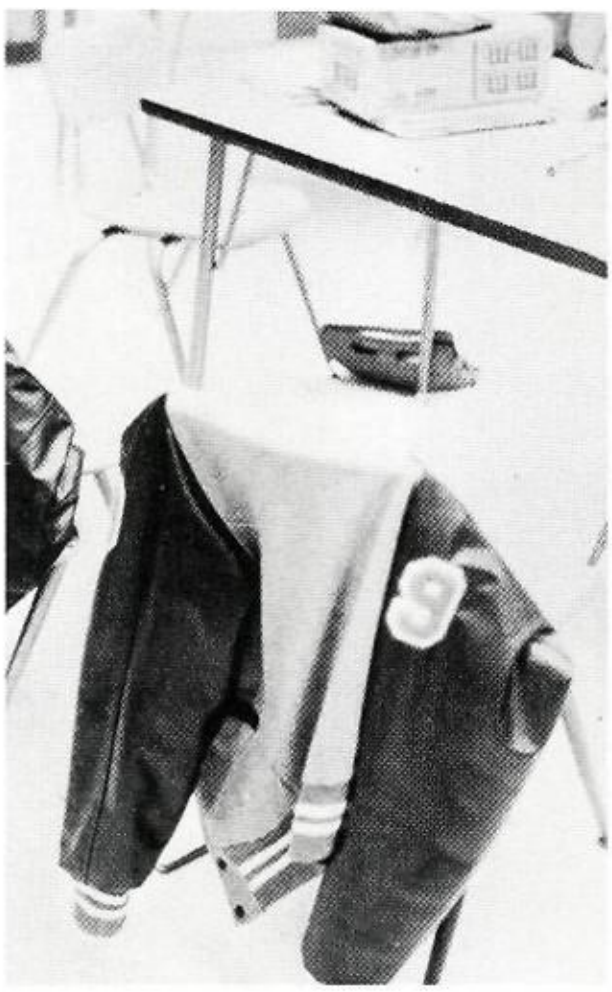
Waldo's Idea

The Vietnam War ended; the World is in a lot of trouble with the energy crisis.

Jesus Soliz

The 70's for me was a time of crisis.

Gregoria Rodriguez



Well, these past ten years have been my growing up years and I've really changed from year to year into who I am right now, and I wouldn't change to be anyone else because I'm satisfied being Me!

Julie Quinn

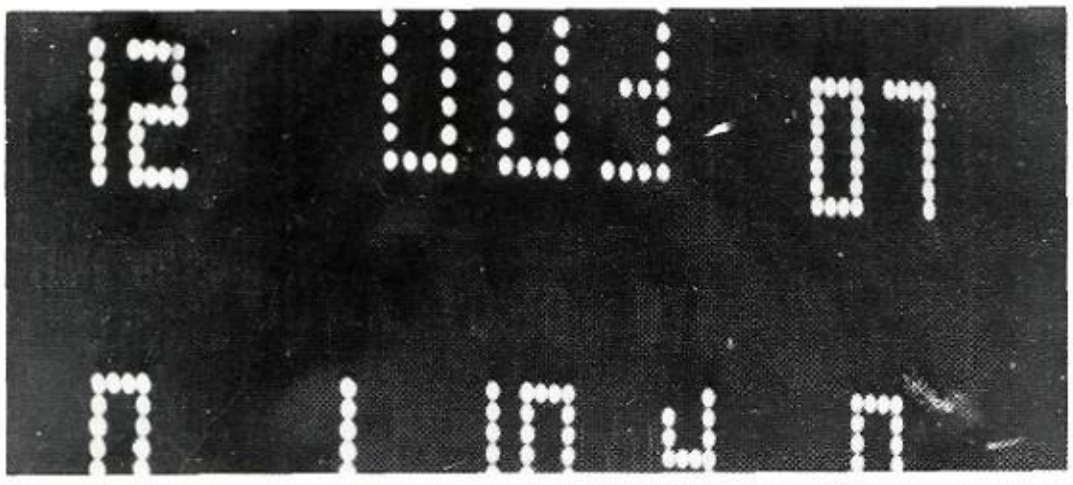
The last 9 years have meant that I'm almost through with High School. Many great politicians have been thrown out! We finally met the energy crisis. Air disasters have taken their toll of lives. This decade was not very good.

Joe De Leon

# You? The Seventies Decade: What It

70's: We the People, sex, violence, crime.

Rosalinda Riojas

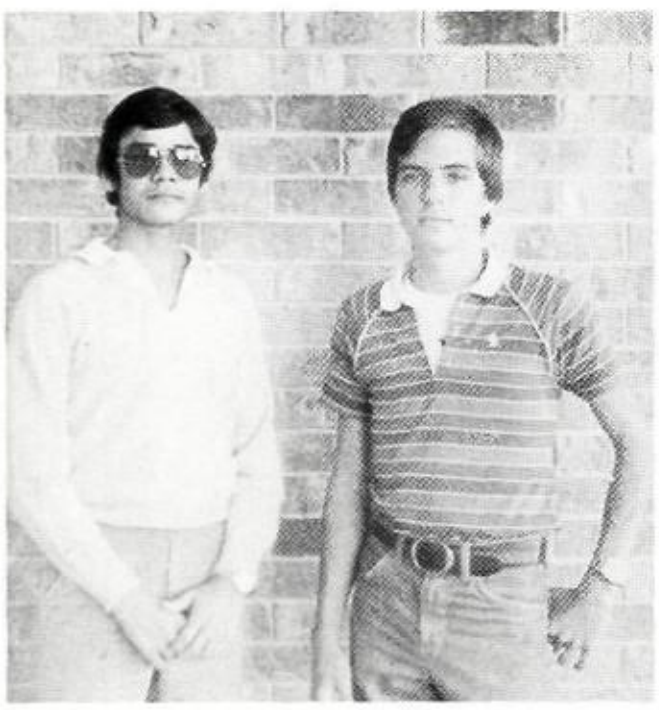


Well, the 70's to me have been a time of growing up. This year has been the most important time of my life. So many changes have happened to the world: peace, energy crisis, inflation. The fads and fashions have been ever-changing. I might have changed a few things, but overall it was fantastic and I'm glad I was a part of it. Thanks World!

Kathy Grossenbacher

The 70's have been a period of "small change." The 70's have gone slow and I feel everyone has enjoyed it. People have found themselves and I feel everyone feels that there is a need for peace, and is realizing that war is meaningless. To me the 70's have been like a slow ride down a sparkling stream.

Anonymous

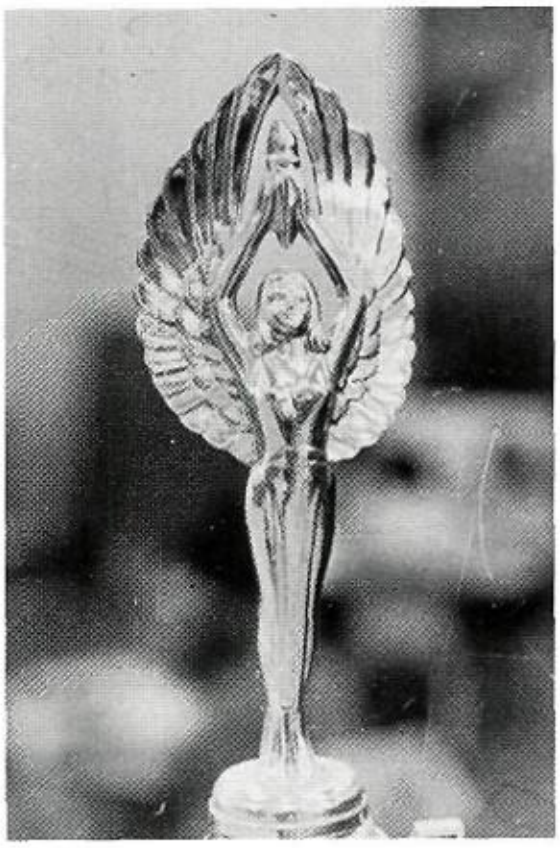


The last 9 years was when I completed 3¾ of my schooling. That's important to me. Vietnam ended, Watergate and the impeachment of Nixon took part, the energy crisis and oil shortage happened. Many great groups debuted in the 70's: KISS, Boston, Foreigner, Styx, Billy Joel, Steve Martin, The Village People, and Aerosmith.

Bobby Rumberger

No gas, no vacation.

Lisa



70's: It meant to me Happiness.

Raul Muzquiz

In the 1970's there have been very many happenings that are hard to forget. Like the energy crisis, oil embargo, and the best discos with the neat disco fashions.

Frances Saucedo

The 70's: When you look back these years have passed so fast. The happy times, the sad times, they are all memories we will reassure for years to come. And we'll respect and cry over.

Veronica Mata

Watergate — When bad things about our govt. were exposed.

## *Season Ends With Six Wins in Basket*

The Boys Varsity Basketball Team ended the 1978-1979 athletic season with several wins in their basket. The wins were true results of the hours of hard training the basketball Eagles worked for. Though the team had some losses they still strived harder to achieve the goal of being the Mighty Eagles. With the help of their trainers and managers and the encouragement of their head coach Mike Canfield, the basketball team proved to their school that they deserve to be called the "Eagles". Gerardo Reyes was named All District Player in 30 AAAA.

This 78-79 Track season has certainly been the best for the Eagles Junior Varsity Track Team. The J.V. boys placed and took awards at each meet they participated in. Many track records were broken by the boys in various field and running events. Such as the Pole-Vault record broken by Ricky Chism at the Comstock meet, the High Jump by Craig Schlegel who also placed 1st in the Shot-Put event, and the J.V. Eagles Relay team consisting of Mike Bailey, Joe Escobedo, Raul Garcia, and Everado Ramirez. The team considered the Comstock meet held in Del Rio to be their most significant track meet. There the boys competed against Del Rio's Class B Varsity athletes, and the J.V. Eagles walked away with all the trophies from each event.

## *JV's Rising Stars*

The 1978-1979 J.V. baseball team was a young and inexperienced group of boys, but that did not stop them from scoring more wins than losses. These aspiring Eagles showed much determination and energy throughout the rainy baseball season. They learned more about the challenging sport from the mistakes they made on the field from each game. The J.V. Eagles ended their season with an overall 7 wins and 4 losses. With these statistics in mind, the Varsity team for next year has some prospective players.
